

Cincinnati Veteran Receives New Roof Installed by Deer Park Roofing

Owens Corning Roof Deployment Project Gives Back to U.S. Military Veterans

Cincinnati, Ohio, October 26, 2017 – Owens Corning Platinum Contractors are working with Habitat for Humanity of Greater Cincinnati (HFHGC) to provide new roofs to veterans in need and their families. Ronald Applegate, a Vietnam War veteran, will receive a new roof on Tuesday, October 31, from Deer Park Roofing, an Owens Corning Roofing Platinum Contractor, as part of the Owens Corning national Roof Deployment Project. This nationwide effort is a way to show gratitude and honor the veterans who served our country and the families who support them.

"We've served the great city of Cincinnati for more than 20 years and this community is like family to us," said Nick Sabino, President of Deer Park Roofing. "It's an honor to know that we can help Ronald and make an impact right in our own backyard."

Owens Corning Roofing and its network of independent Platinum Contractors, along with support from the Owens Corning Foundation, are donating roofing materials and labor to replace roofing shingles on the homes of military veterans and their families throughout the country. Through a partnership with Habitat for Humanity of Greater Cincinnati, Ronald Applegate was selected and approved as the recipient for the roof replacement.

"We are grateful for this partnership with Owens Corning and Deer Park Roofing," said Ed Lee, HFHGC President & CEO. "Collaborations like this help us serve more families and ensure decent, safe housing."
